**VICTORY PLANTS,** the Prestige Strain of Michigan - grown Nursery Stock

**TO THE PUBLIC AND OUR OLD AND NEW CUSTOMERS**

It is with much pleasure that we tell you that our VICTORY PLANTS, trees, vines, shrubs, and flowers make up the largest number of plants ever grown by us in our nursery as we have been putting out a common sense catalogue. Our plants have produced a larger number of blooms, larger flowers, good variety, and blooms of a longer duration than ever before. We could write a fine large catalogue and have big red letters of approval upon it and it might appear as the other fellow. Yet all these costs, and someone got the name of the plants that paid for the plant, as the case may be. We have not done so. We have followed our own policy and your own results.

Yes, the make up of our price list is unpretenious, but the prices are so low that you can't help but take our advice in the matter. We have not added, but have taken away. The proof of this is: Our Business grows each year. We thank our friends for this, and have in mind our future customers and in ninety-nine out of a hundred cases we are sure to please. You will have to make up your own mind about the future.

**GREATLY REDUCED PRICES**

You can see for yourself that this is done, and experienced we find that the more you buy of a certain variety the cheaper it may be. The reason for this is that it is more convenient, especially for people that live out of town, that we are selling them at the door. Fifty pounds go anywhere by post. Seventy-five pounds go by express. We hope you will give us the right to substitute, or give us second choice this year, as some varieties are in very short supply. We are always at your service, to please our customers, and in ninety-nine out of a hundred cases we are sure to please you.

**STANDARD JUNE BERRY VARIETIES**

**Aroma (S)**—One of the finest late cherries and the largest variety of its kind. The fruit is large, red, and juiced. This variety grows in Wisconsin. It is an excellent variety for the June market. The fruit is sweet and juicy, with a flavor of currant. It is a standard variety for the June market.

**Big Lute (S)**—Same as Big Joe or Joe Johnson. Our nursery has absolutely true to name. We fruit it last in June. The fruit is large, red, and juicy. We have found them extremely productive. We do not guarantee this variety to be absolutely true to name.

**Champion Everbearing**—This new everbearing variety was introduced last year. It has been extensively planted by fruit growers in southern California and is now being grown in the northeastern part of the country.

**Cooper (P)**—One of the largest of the large. Large healthy foliage, Berries of best color, flavor and productivity. Plant in a good-sized area, plant 10 acres, give 100 bushels per acre.

**Conklin—Dr. Burrell (S)**—Haverfield (P), Gandy (P), with very large, red, Juicy, with great flavor. We have sold this variety for years. We give it to you for its value.

**Uncle Jim (or Darwin)**—One of the very best of the early cherry varieties, vines are vigorous and healthy, fruit large and firm, and having a grafted bud on the outside. It is a standard variety for the June market. The fruit is sweet and juicy, with a flavor of currant. It is a standard variety for the June market.

**Balbush (P)**—One of the largest and most productive of the varieties. Large fruit, good quality, plant in a good-sized area, plant 10 acres, give 100 bushels per acre.

earlier, profitable the believe to all field to, is in. good to Palmetto— Concord Columbian Gregg— is buy grown. for good Prolific— and a canner fine, a large, blackcap; to market; large, to fine, large, of market, for large, of new harvest $17.

Later, Red—A very desirable, large red grape. Does not bloom for a yearling will in. It will be a very good kind for selling in one season. It is quite a good, large, heavy ripening earing grape; commands a good price on the market; hardy.

Worden—A purple-black grape, seedling of Concord, which is said to be much superior in quality. It is a little later and perhaps a little sweeter, and of a delicious flavor. It is a splendid table grape and is splendid for canning, making juice, and a leader on a market.

Niagara—The best white grape hardy, good. It is excellent for table and market use. It is large, well-balanced, and wings, in popularity each year and commands the highest price on the market. It is a very choice and thrifty grower, and not delicate. This variety will not be too hardy for northern work. This grape has been grown under different names, but all the grapes are very similar.

Moore's Early—Another fine, early black-purple grape, seedling of Concord. This grape is grown in many parts of the country and is a little later than Concord. It is a very choice and thrifty grower. Satisfies any one by its fine flavor, large bunches, and large, well-balanced size.

Axawas—Here is a grape that has few equals for a table grape. Set Grapes for Profit. Let us sell you the vines. We offer you the best varieties of grapes known in Michigan and are supplying many of the large nurseries in the State with thousands of slips each year.

CURRANTS

This is the best red currant grown. About the heaviest bearer of exceedingly juicy and pure currant clusters, of which we have samples in our office. Records have been made of 300 per acre here in the State in the last few years. It is a hardy grower.

Catalpa—This is the best currant for market. They can be sold partially ripe, or very ripe, or fully ripe, and will fetch a price. They will give one a wonderful opportunity to harvest the market. The market is always keen for all kinds of currants, and the best varieties only. Most profitable of small fruits. Black Napels—Black Napels, very much like "S-White"—Medium-sized, red currant, a good bearer, as coarse as purple grape. A choice and handsome shrub.

Columbian Market—This is the best red currant grown. About the heaviest bearer of exceedingly juicy and pure currant clusters, of which we have samples in our office. Records have been made of 300 per acre here in the State in the last few years. It is a hardy grower.

FLOWERING AND DECORATIVE VINES

Large flowering vines are a popular addition to the garden. They are available in a variety of colors and can provide beauty and interest in the home garden all the year around.

**Wisteria**—Prized for its spring display of blue, purple, or white flowers. It grows rapidly and requires little care, making it an ideal climbing vine for pergolas, arbors, or trellises.

**Clematis**—Beautiful flowers in a range of colors, including pink, red, and blue. They can be grown as ground covers, in borders, or on pergolas.

**Climbing Roses**—Roses can be grown as climbing vines, producing beautiful blooms in the summer months. Choose a variety that is suitable for your climate and soil conditions.

**Trumpet Vine**—Red, large, fragrant blooms; hardy. One of the earliest to flower and a great accent piece in the garden.

**Clematis**—This is the most beautiful flower of the vine. It produces large, colorful blooms in a range of colors, including pink, red, and blue. It can be grown as a ground cover or on pergolas.

**HYDRANGEA**—The classic hydrangea is a favorite in gardens for its large, showy flowers in shades of pink, blue, and white. It is a versatile plant that can be grown in a variety of soils.

**SOUR CHERRIES**—These are the most popular sour cherry orchards in Michigan have made some handsome profits the past few years, and the future looks bright for this industry, particularly with the population of the country. We have tried every kind of cherry and find that in Michigan, the sour cherry is the best. There is a great demand for sour cherries all over the country, and we have a large demand for sour cherries in our orchards.

**Wines**—Very large, hardy, heavy, showy, beautiful. One of the best kinds for home use. They can be grown in any part of the country. They are hardy, heavy, and showy, and can produce a large crop of fruit. They are also very popular in the orchard, as they are easy to grow and produce a large crop of fruit. They are also very popular in the orchard, as they are hardy, heavy, and showy, and can be grown in any part of the country.
